

Computing and Data Center Related Conferences And Trade Shows In 2017

Computing and data centers represents a distinct set of applications for power supplies, dc-dc converters, VRMs and related power products. These power converters must meet specific electrical requirements including high efficiency, high power density and low cost.

Industry conferences and tradeshow devoted to computing and data center technologies present special opportunities for power supply and power component vendors to market products specifically developed for these applications. Conversely, for designers of computing and data center equipment and systems, these events may offer opportunities to learn about the latest power products and interact with vendors.

This list of selected conferences and tradeshow identifies some of the events in 2017 where suppliers and users of power converters and power components for computing may meet. Events where power supply and power component companies appear on the exhibitors' list are noted. Some of these events may also offer technical sessions addressing issues relevant to power system design.

February:

[Green Data Center Conference & Exhibition](#)

Innovative Strategies For Optimal Efficiency, Reliability and Savings

Feb 21-23, 2017

The San Diego Supercomputer Center

San Diego, CA

March:

[OCP U.S. Summit](#)

March 8-9, 2017

Santa Clara, CA

April:

[Data Center World](#)

Data, Automation, Scale: Building and Managing the Data Center of the Future

Global Conference for data center, facilities and IT professionals

April 3-6, 2017

Los Angeles, CA

Notes: Sponsors include a major power supply company and there are others in the exhibition.

June:

[ISC](#)

High Performance Computing, Networking and Storage

June 18-22, 2017

Frankfurt, Germany

August:

[IDF](#)

The Intel Developer Forum (IDF) brings together the leaders shaping technology's future: developers, technologists, inventors and makers — as well as business executives.

August 15-17, 2017

San Francisco, CA

Also see convention center [website](#).

October:

[INTELEC](#)

International Communications Energy Conference

October 22-26, 2017

Gold Coast, Australia

[Critical Facilities Summit](#)

October 23-25, 2017

Minneapolis, MN

Notes: Features track on "Energy & Power."

November:

[Supercomputing](#)

The International Conference for High Performance Computing, Networking, Storage and Analysis

November 13-18 2017

Sal Lake City, Utah

Know of a conference or tradeshow addressing space technology that is not listed here? Email the [editor](#) to tell How2Power about it.
