Coming Soon: The 29th Annual Components For Military & Space Electronics

The [Components For Military & Space Electronics Conference & Exhibition \(CMSE 2026\)](#) returns to the Renaissance Los Angeles Airport Hotel, April 28 - 30, 2026. This is the premier event focused on the design, reliability, and application of electronic components for use in both terrestrial applications for avionics, aerospace, and military, as well as commercial, civilian, and military space systems.

CMSE offers a conference experience focused on high-quality technical talks, keynotes and panel discussions that foster maximum attendee participation/interaction and furthers our collective understanding of the technical challenges faced in our industry. This event also showcases the supplier base to the greatest extent possible. Additionally, it educates the industry, especially young component engineers, in order to secure the future defense of our country.

For more information, see this year's [technical program](#) and list of [exhibitors](#).
