

Join The Must-Attend Power-Electronics Event On Long Island

by James Colotti, Coordinator, Long Island Power Electronics Symposium

If you work in power electronics, mark your calendar: the [IEEE Long Island 8th Annual Power Electronics Symposium](#) is back on Thursday, November 5. This is the region's top gathering for engineers, managers, buyers, manufacturers and users of power supplies, power converters, servos, and energy storage.

Why Go?

- Network with 500+ peers and industry leaders across military, industrial, medical, space, consumer, and automotive sectors.
- Explore an exhibit hall where 75+ companies showcase the latest products and services.
- Attend PDH-approved technical lectures.
- Enjoy complimentary lunch, coffee break and light dinner—all in the exhibit hall.

It was standing room only as Bill Geosits of Analog Devices presented "Getting the Most from LTspice" at the 2025 IEEE LI Power Electronics Symposium.

What's Included With Free General Registration?

- Full access to the exhibit floor and technical lectures.
- Complimentary networking lunch, coffee break and light dinner in the exhibit hall.
- Swag bag packed with exhibitor gifts.

Unregistered general attendees are welcome, but swag bags and complimentary lunch are only for the first 200 pre-registered attendees that arrive.

Logistics

- Date & time: Thursday, November 5, 2026—drop in anytime between noon and 8:00 PM
- Venue: Hauppauge Radisson, 110 Motor Parkway, Hauppauge, Long Island
- Cost: Free for attendees

Live demonstrations on the exhibit floor of the 2025 IEEE LI Power Electronics Symposium.

Register early and plan your lecture tracks. This year's turnout is expected to top last year's 500+ attendees.

To learn more about the symposium and to register, see the [webpage](#).
